

ISO 22000:2018 - Certified Lead Auditor

Introduction

The ISO 22000:2018 - Certified Lead Auditor certification course is designed by the GAQM for individuals who want to learn about the food safety management standards and help organizations identify and control food safety hazards. In addition to that, the ISO 22000 lead auditor certification is exclusively designed for individuals seeking to establish a more focussed, consistent, and integrated FSMS. Moreover, the ISO 22000 standards apply to all types of producers, hence, they also provide a layer of reassurance within the global food supply chain, helping products cross borders and serving people food that they can trust.
