# ISO 9001 Lead Implementer

## Introduction

ISO 9001 Lead Implementer certification is developed by Global Association for Quality Management (GAQM) for advanced-career level professionals responsible for executing a Quality Management System (QMS) and those who require to manage an implementation project. The organization that has quickly adopted the principles of ISO 9001 often reports that there have been considerable improvements in their operations, with business gains. Moreover, ISO 9001 certification is applicable for both large as well as small businesses that will benefit from adopting an efficient QMS that will save time and cost. After the completion of the course, the candidate will gain a deep understanding of the best practices possible of Quality Management Systems.
